

# Ticket Analysis

This report provides a granular breakdown of the 916 support tickets raised. Following a recent data refinement process, issue categories have been more precisely defined to provide better visibility into specific operational bottlenecks. The majority of tickets are driven by Publishing Workflows and User Access Management, with SICO Bank being the most active client in terms of support requests.

## 1. Issue Category Analysis (Total: 916 Tickets)

### Key Observations:

Compared to previous reports, "Report Generation & Workflow" has been successfully broken down into specific segments like Publishing Workflow and Excel Plugin Sync, allowing for more targeted fixes.

### Most Frequently Raised Issues To The Least Frequent Ones

| Issue Category                          | Count      |
|-----------------------------------------|------------|
| Publishing Workflow                     | 162        |
| User Access & Client Contact Management | 143        |
| Website & UI Issues                     | 85         |
